### **DETAILED ACTION**

The examiner acknowledges the telephone interview with a Mr. Duffet on 12/8/03 in which Robert Warden (SPE) was informed that the restriction of 12/2/03 did not reflect the current pending claims. The restriction that follows does reflect the current pending claims in the application.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, are drawn to a method.

Group II, claim(s) 11, is drawn to a device.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the group I claims do not require that the magnetic alternating field be provided by a device comprising a coil nor does the group II claims specify that the device causes an increase in the thermal and/or kinetic energy of magnetic particles.

A telephone call was made to Mr. Duffet on 12/3/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1744

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
